24/7 SERVICE

Facility Solutions Group is an industry leader in electrical construction and electrical services. From design to budgeting, from procurement to installation, FSG offers a complete and competent solution

Plan & Spec

At FSG we have the right people to deliver the products and solutions that have been specified for your unique project.

Design-Build & Assist

Let our in-house experts work with your architect or designer to ensure quality implementation of your new electrical system.

Integrated Solutions

With the breadth and depth of our in-house experts' knowledge, FSG designs projects that incorporate the best practices and products.

Technology Services

Upgrade or service an existing technology system. Design, build, and install a brand new solution, custom fitted to your business's unique needs. FSG is your one-source stop for any and all of your structured cabling, security, and A/V requirements.

Service Department

The FSG teams of certified electrical service technicians are ready to respond to your needs on call with regularly scheduled maintenance plans. We are experts at troubleshooting, installing, and maintaining any electrical systems. Our dedicated team will keep your operation running at peak electrical performance.
