

Make your smart building technology work harder for you.

We help you improve energy efficiency, lower maintenance costs, and prepare your facilities for the future.

FSG Smart Buildings gives you back control over your smart building technology.

From **24/7 monitoring and support**, to complete design and installation of new systems, our team is here to help you save money and maintain peak efficiency.

- **Most service calls are answered within seconds, and resolved in minutes – not hours or days**
- **Industry-best monitoring reduces expensive, disruptive technician visits**
- **We help you stay at the leading edge of smart building tech, saving big money well into the future.**

Our services and solutions are all powered by the best people, parts, and partners in the industry.

- **Energy Management Systems**
- **Sustainability Programs**
- **Equipment Monitoring & Sub-Metering**
- **Support Services**
- **Project Development**
- **Indoor Air Quality (IAQ)**
