

COAST DENTAL & ORTHODONTICS

Central Florida

As Coast Dental rolls out tenant improvements for lighting, carpet, paint, and ceiling tile they have chosen FSG to lead the way as their lighting guide.

CHALLENGE

Coast Dental wanted to improve their interior lighting aesthetics as they upgraded the offices in Florida and Georgia.

SOLUTION

The found FSG via Google Search and the Central Florida Office has been able to assist with their goals.

FSG has utilized multiple lighting manufacturers based on pricing, availability, and customer service.

We have gone with Rab Lighting, Current, and ASD Lighting over the past few years.

Architectural lay-in fixtures can make a big difference in a dentist's office setting both with quality of light and light level improvement!
