

Let FSG light the way

## CAESARS ATLANTIC CITY

Nationwide

FSG performed comprehensive lighting audits and designs for multiple Caesars' properties nationwide

### CHALLENGE

The lights shine bright at casinos, and the casinos of Caesars Entertainment are no exception. To make sure that their lighting was the best and brightest, Caesars contracted Facility Solutions Group to undertake audits and design work for several Caesars properties in the United States.

### SOLUTION

FSG performed comprehensive lighting audits and designs for multiple Caesars properties nationwide. Once the designs had been accepted by property management, FSG performed lighting upgrades for such signature casinos as Caesars, Bally's, Claridge, Showboat, Horseshoe, and Harrah's. These upgrades included interior and exterior spaces, parking garages, building facades, decorative lighting, guest room lighting, and back-of-house areas. The upgrades were based on the use of LED technology and featured the installation of intelligent lighting controls.

**Owner**

Harrahs Entertainment

**Contract Type**

Lighting

**Contract Amount**

\$6,000,000

**Electrical Contractor**

FSG
